

Simplify Security Management with a HIPAA-Compliant Solution

With Verkada's cloud-based security platform, healthcare organizations are modernizing the way they manage and access physical security across their facilities. Learn how healthcare professionals are using Verkada to enhance patient care and security operations, all while safeguarding sensitive information.

Products

Video Security

- Scale easily and monitor activity across facilities.
- Monitor inventory and prevent medical supply theft with proactive alerts.

Access Control

- Provision hospital staff with tiered access levels.
- Schedule doors to lock or unlock based on hours of operation.

Sensors

- Maintain optimal conditions for patient care and pharmaceutical storage.
- Receive alerts for any sudden changes in temperature, noise levels, or air quality.

Key Benefits

HIPAA-Compliant for Patient Privacy

Control access with role-based permissions and create blackout zones with Privacy Screens.

Prevent Medical Supply Theft

Track access to storage rooms and know instantly when activity is detected in key areas.

Lockdown Doors in Seconds

Create custom Lockdown events to secure doors in the event of an emergency.

Search Filters for Quick Investigations

Use powerful video forensics to filter people, vehicles, motion, and other attributes.

Share Video for Incident Response

Access, download, and share footage from any browser or mobile device in minutes.

Monitor From Anywhere

Remotely access doors and cameras without any VPNs or configurations.
